1. Section 295.25 is amended to read as follows:

§ 295.25 *Freight bills.* The exporter shall, within six months after delivery to the exporter of warehouse receipts representing cotton purchased from Commodity Credit Corporation's stocks, either:

(a) Purchase the freight bills held by the Corporation covering the bales of such cotton which were shipped by rail to the warehouses issuing the warehouse receipts, at their refund value based on reshipment of such bales to Greenville, South Carolina, as representative of Group B points, or, if such cotton is stored at Group A or Group B points and is reshipped, based on the destination to which such cotton is actually reshipped; or

(b) Furnish the Corporation with out-bound bills of lading having value for transit claim, acquired in the shipping of such cotton (or its equivalent in transit value) to a transit destination routed via the railroad line designated by the Corporation;

otherwise, the exporter shall honor a three-day sight draft, with the freight bills held by the Corporation attached, for the amount specified in paragraph (a) hereof.

If the cotton is stored at a port when sold to the exporter, the foregoing provisions of this section shall not be applicable where the exporter furnishes the Corporation a copy of on board ocean bill of lading evidencing exportation of the identical cotton from the same port.

2. Section 295.4 (a) is amended to read as follows:

§ 295.4 *Price*—(a) *Base price.* The "base price" for any cotton shall be (1) the average price per pound for Middling $\frac{15}{16}$ inch white cotton on the 10 spot markets, plus 60 points, or (2) the price per pound for which Commodity Credit Corporation offers to sell domestically Middling $\frac{15}{16}$ inch white cotton located at Group B points, whichever is the lower, on the day the Corporation receives notice of the export sale of the corresponding cotton, less the amount of the export differential. "Corresponding cotton", as used herein, means the cotton sold for export which entitles the exporter to purchase a particular quantity of cotton hereunder.

This amended paragraph (a) is applicable to all cotton purchased on or after November 20, 1945.

Dated this 16th day of November 1945.

PART 1407—RATIONING OF FOOD AND FOOD PRODUCTS

[Rev. RO 16, Amdt. 86]

MEAT, FATS, FISH AND CHEESES

A rationale for this amendment has been issued simultaneously herewith and has been filed with the Division of the Federal Register.

Section 7.21 is added to read as follows:

SEC. 7.21 *User of peanut oil in manufacture of peanut butter not an industrial user in certain cases.* (a) Some peanut butter is made by extracting oil from peanuts, refining the oil (which may also be hydrogenated or otherwise processed as well) and combining it with the residue of peanuts left after extraction of oil for this operation in the same proportion (less refining and processing losses) as the amount of oil extracted bore to the peanut residue after extraction. The use of the peanut oil extracted in the course of this operation to make peanut butter in this way is not an industrial use of this oil, and the person who uses it so is not an industrial user. A person engaged in this operation may use any amount of such peanut oil to make peanut butter in this way. However, before a person may engage in this operation, he must notify, in writing, the District Office for the place where his principal place of business is located that he intends to engage in it. He must also keep a record of the amount of peanut oil he extracts, the amount of peanut residue left from the extraction, and the amount of peanut oil and peanut residue he uses to make peanut butter.

(b) A person engaged in this operation, who has notified the District Office that he is so engaged, and who refines, bleaches, deodorizes, hydrogenates or similarly processes peanut oil which he extracted and which he uses in this operation, shall not be deemed to be a primary distributor with respect to this oil.

(c) A person who is engaged in this operation and who has notified the District Office that he is so engaged, may deliver peanut oil which he extracted and which he will use in this operation to a primary distributor for further processing, and may acquire that oil from a primary distributor without giving up or receiving points for it. Such person must, when he acquires such oil, give the primary distributor a written statement setting out his name and address, the amount of oil so acquired, and a certification that the oil so acquired was extracted and will be used in accordance with this section. Each primary distributor who refines or otherwise processes such oil shall attach to the re-

port which he files in accordance with section 4.11 of this order, all such statements received during the reporting period covered by the report.

This amendment shall become effective November 23, 1945.

SECTION 1. *Ceiling prices fixed by this regulation.* This regulation fixes ceiling prices for all sales of women's nylon hosiery in the finished state or in the greige.

(a) *Women's finished nylon hosiery.* The ceiling prices for sales at retail, sales at wholesale and sales by manufacturers of women's finished nylon hosiery are set forth below in Tables 1, 2 and 3 of Appendix B. Table 1 applies to full-fashioned hosiery. Table 2 applies to circular knit hosiery. Table 3 applies to certain special constructions.

As used in this regulation, women's nylon hosiery include women's and misses' full length hosiery of less than 45 inches in length, the leg of which is made in whole or in part of nylon. It does not include hosiery made to spec-

ifications of motion picture studies and sold to motion picture companies for use exclusively in the production of motion pictures.

(b) *Women's full-fashioned nylon hosiery in the greige.* The ceiling prices for any sales of women's full-fashioned hosiery in the greige are fixed at the manufacturer's ceiling prices for first quality women's finished unbranded hosiery as set forth in Appendix B, less \$1.75 per dozen if not preboarded, and less \$1.50 per dozen if preboarded.

As used in this regulation, women's nylon hosiery in the greige include the same kind of hosiery described in paragraph (a) except that they are in the greige rather than in the finished state.

SEC. 2. *Types of sales.*—(a) *Sales at retail.* A sale at retail is a sale in compliance with the provisions of this regulation to an ultimate consumer, by a seller who regularly conducts a retail business. "Ultimate consumer" also includes industrial, commercial and institutional users who do not buy for resale.

Appendix B provides specific prices for sales by "chain stores" and "mail order houses" as defined below.

(1) *"Chain stores."*—(i) *Who are "chain stores."* Certain sellers at retail are classified as "chain stores." As used in this regulation, a chain store means a store which is one of a group of five or more commonly owned or controlled retail stores which, as a group, had in any calendar year since 1938 an "average percentage of initial markup" of 34 percent or less on women's full length hosiery. To determine this markup, the chain must:

(a) Compute the total of the initial retail prices at which all purchases of this hosiery were marked during a given year.

(b) Compute the total of all invoice charges on purchases of the hosiery during the same year (figured after all discount deductions and including all transportation costs).

(c) Subtract the total secured in (b) from the total secured in (a); and

(d) Divide the remainder by the total obtained in (a).

Sellers who are composed of a group of five or more commonly owned or controlled retail stores which as a group had, in every calendar year since 1938, an "average percentage of initial markup" of more than 34% should prepare the above computation for each year since 1938 and deliver the computation signed by the seller or a responsible official of the seller to Consumer Goods Price Division, Office of Price Administration, Washington 25, D. C., by registered mail. Until this computation is mailed to the Office of Price Administration, sales made by all sellers composed of a group of five or more commonly owned or controlled retail stores shall be considered sales by "chain stores" and priced accordingly.

(ii) *Exceptions for certain sales.* Any group of stores classified under this section as "chain stores" may file an application for permission to sell and deliver at the ceiling prices specified in column (g) of Table I, Appendix B, such full-fashioned women's nylon hosiery as it purchases at the ceiling prices specified in column (d) of Table I, Appendix B, from establishments making sales at

wholesale if it can establish that more than 50 percent (in dozens) of all the women's full-fashioned full length hosiery which was delivered to it during each of the years 1941, 1942 and 1943 (or during each of the years 1941, 1942 and 1943 in which it has been engaged in the business of selling women's full-fashioned full length hosiery) was purchased by it from establishments making sales at wholesale. Such application must be filed in writing with the Consumer Goods Price Division, Office of Price Administration, Washington 25, D. C., and shall contain the following information:

(a) The name and address of the applicant, and the number of stores in its group;

(b) The date on which applicant first engaged in the business of selling women's full-fashioned full length hosiery;

(c) Facts showing that the applicant is a "chain store" under the provisions of section 2 (c) (1) (i) of this regulation;

(d) The number of dozens of pairs of women's full-fashioned full length hosiery which was delivered to it during each of the years 1941, 1942 and 1943 (or during each of the years 1941, 1942 and 1943 in which it was in the business of selling women's full-fashioned, full length hosiery);

(e) The number of dozens of pairs of women's full-fashioned hosiery as specified in subdivision (d) which were delivered to it by establishments making sales at wholesale and the number of dozens of pairs which were delivered to it by manufacturers during each of the years 1941, 1942 and 1943 (or during each of the years 1941, 1942 and 1943 in which it was in the business of selling full-fashioned full length hosiery);

(f) The names and addresses of each establishment making sales at wholesale which delivered women's full-fashioned full length hosiery to the applicant during each of the years 1941, 1942 and 1943 (or during each of the years 1941, 1942 and 1943 in which it was in the business of selling women's full-fashioned full length hosiery) and the number of dozens of pairs delivered to the applicant by each such establishment during each of those years.

No sales or deliveries may be made by "chain stores" at higher than the ceiling prices specified in column (e) of Table I until specific authorization is granted in writing by the Office of Price Administration pursuant to this subdivision. An order by the Office of Price Administration granting permission to sell rayon hosiery at prices in column (g), Table I, of 2d Revised Maximum Price Regulation 339 shall constitute authorization to sell, at prices in column (g), Table I of this regulation, nylon hosiery lawfully purchased (in a sale at wholesale) at ceiling prices in column (d), Table I of this regulation.

(2) *"Mail order houses."* A mail order house is an establishment selling at retail which does a "mail order business" (i. e., makes offerings through retail catalogs or price lists, receives orders and delivers by mail to ultimate consumers) and which in any calendar year since 1938 had an average percentage of initial markup of 34 percent or less on women's full length hosiery. "Average percentage

¹ 7 F.R. 8521, 8948, 9492; 8 F.R. 8502, 11951; 10 F.R. 5523.

of initial markup" shall be computed in accordance with the provisions of subparagraph (1) of this paragraph. Sellers doing a mail order business, who in every calendar year since 1938 had an "average percentage of initial markup" of more than 34%, should prepare this computation for all women's hosiery not produced by them covering each of the years since 1938 and deliver the computation signed by the seller or a responsible official of the seller to Consumer Goods Price Division, Office of Price Administration, Washington, D. C., by registered mail. Until this computation is mailed to the Office of Price Administration, sales made by sellers doing a "mail order business" shall be considered sales by "mail order houses" and priced accordingly.

(b) *Sales at wholesale*—(1) *Definition*. A "sale at wholesale" is a sale of any quantity of nylon hosiery in compliance with the provisions of this regulation by a seller who is a qualified wholesaler at the time of the sale and has been a "qualified wholesaler" continuously since January 1, 1942. A seller is a "qualified wholesaler" if he meets all of the following tests:

(i) The seller carries a representative stock of women's hosiery in his place of business, making at least 90 percent of his deliveries "from stock" carried in his place of business (as opposed to "drop shipments" as defined in Appendix B, Table I); and

(ii) The seller takes title to all of the women's hosiery handled by him and bears the risk of loss or damage while in his possession.

(iii) The seller sells women's hosiery to independent retail stores generally and not primarily or principally to a single retailer or group of retailers under common ownership or to a buying syndicate or group.

(iv) The seller is not a buying office or other agency representing retailers or a central office or warehouse for commonly owned or controlled retail stores.

(v) The seller represents himself and is generally known as a wholesaler and does business as a wholesaler of women's hosiery in an establishment not located in, or physically connected with, any building in which hosiery is knit, assembled or finished.

(vi) The seller is not and does not represent himself as a manufacturer, manufacturer's agent, manufacturer's representative, "selling agent," "factor," "mill agent," "broker," or "commission broker."

(2) *How to secure a "qualified wholesaler's" registration number*. In order to secure a "qualified wholesaler's" registration number a wholesaler should send to Consumer Goods Price Division, Office of Price Administration, Washington, D. C., a request stating that he was a "qualified wholesaler" (as defined in this regulation) of women's hosiery on January 1, 1942, and that he is now and was at all times subsequent to January 1, 1942 a "qualified wholesaler" in accordance with this definition. If he is affiliated with a manufacturer he must explain the nature and extent of the affiliation. On and after January 1, 1946 no sale at wholesale may be made

unless the seller has secured a qualified wholesaler's registration number, and unless this number is stated on the invoice which is required to be delivered to the buyer, by section 5 (c) (2) of this regulation.

(3) *How to apply for special qualification*. If a seller entered the business of selling women's hosiery at wholesale between January 1, 1942 and November 1, 1945, he may sell women's nylon hosiery at wholesale prices until January 1, 1946; *Provided*, That he meets all of the other qualifications of section 2 (b); *And provided*, That he has sent, by registered mail, to the Consumer Goods Price Division, Office of Price Administration, an application for permission to sell women's nylon hosiery in the form outlined below in this paragraph for other sellers who seek special qualification. No seller who entered the business of selling women's hosiery between January 1, 1942, and November 1, 1945 may sell women's nylon hosiery at higher than manufacturers' prices after January 1, 1946, unless he has received written permission from OPA to do so pursuant to his request. If a seller entered the business of selling women's hosiery at wholesale after November 1, 1945 or if for some other reason, does not meet all of the other qualifications set forth in section 2 (b) he is not permitted to sell women's nylon hosiery at higher than manufacturers' prices until he has secured permission in writing from the Office of Price Administration, Washington, D. C. Application for permission to sell under these conditions at wholesale prices shall be made by filing a statement with the Consumer Goods Price Division, Office of Price Administration, Washington, D. C., containing a full description of the extent to which the business which the applicant conducts or proposes to conduct, meets or fails to meet the qualifications in section 2 (b) and information to establish that he conducts a business which renders a recognized, bona fide distributive function normally performed in the sale of women's hosiery at wholesale, and to establish that the granting of permission to sell to the applicant will not have the effect of increasing prices to retailers or consumers or otherwise impair the effectiveness of this regulation.

(4) *Wholesalers affiliated with manufacturers (or their representatives)*. Where a seller qualifies to make sales at wholesale under the provisions of this section but is an affiliate of a manufacturer or of his agent, selling agent or selling representative, the sales which the affiliate makes of such manufacturer's production of women's hosiery which are in excess of the proportion of the manufacturer's production of women's hosiery that the seller sold in the year 1942 must not be sold at prices higher than manufacturer's ceiling prices: *Provided, however*, That if the seller has, since January 1, 1942, become an affiliate of the manufacturer or of his agent, selling agent, or selling representative he cannot sell any women's nylon hosiery produced by this manufacturer at higher than manufacturers' ceiling prices. One person is an affiliate of another if:

(i) There is a profit-sharing agreement between them; or

(ii) There is a common ownership of both to the extent of 10 percent or more or there is ownership of one by the other to the extent of 10 percent or more; or

(iii) They have a common management, operation, control or direction or one is controlled, managed, operated or directed by the other.

(c) *"Sales by manufacturers."* (1) "Sales by manufacturers" include any sale of hosiery produced by a manufacturer as defined below or by his agent, employee or representative. A manufacturer is a person who knits, sews or assembles women's hosiery or for whom women's hosiery is knit, sewn, or assembled from yarn or other materials which he supplied, purchased or furnished. Hosiery is "produced" by a manufacturer if he knits, sews or assembles the hosiery or has the hosiery knit, sewn or assembled for him from yarn or other materials which he supplied, purchased or furnished. However, sales of women's nylon hosiery sold to ultimate consumers by a manufacturer who regularly conducts a retail business, other than mail order, are governed by the ceiling prices for sales at retail. If the manufacturer conducts a mail order business, sales by mail to ultimate consumers are governed by the ceiling prices for sales by "mail order houses".

(2) *Sales which do not qualify as "sales at retail" or "sales at wholesale."* These sales are governed by the ceiling prices established for sales by manufacturers.

(3) *Limitation of distribution by manufacturers to non-retail sellers*. No manufacturer shall deliver in any calendar quarter year a larger percentage of his production of women's nylon hosiery (including finished and greige goods), to sellers other than sellers-at-retail, than his "wholesaler percentage". A manufacturer's "wholesaler percentage" is the percentage that a manufacturer's deliveries in 1941, of women's full-length hosiery (including finished and greige goods) to sellers other than sellers-at-retail, bore to his total deliveries of women's full-length hosiery (including finished and greige goods). Deliveries by a manufacturer's agent or selling representative are to be considered as deliveries by the manufacturer. Deliveries to retailers' buying agencies, such as buying syndicates and central buying offices, are to be considered as deliveries to sellers-at-retail.

Sec. 3. Branded full-fashioned hosiery—(a) *Two kinds of manufacturers' prices*. Two sets of ceiling prices are fixed for sales of full-fashioned hosiery by manufacturers. One set applies to sales of "branded hosiery" (as defined below). Another set applies to sales of unbranded hosiery (that is, hosiery which does not meet the definition of "branded").

(b) *Definition of branded hosiery*. For the purpose of this regulation women's full-fashioned nylon hosiery is branded if it meets all of the following conditions:

(1) It is first quality hosiery delivered by a manufacturer directly to retail establishments under the manufac-

turer's trade name or trademark and sold by the retailer to consumers under such trade name or trademark; and

(2) The women's hosiery was regularly advertised under the trade name or trademark by the manufacturer in the year 1941 or 1942 either in the consumer press or by other advertising directed to the consumer not including advertising by displays, posters, inserts, or other similar forms of advertising on the premises where the hosiery is sold.

(3) It is delivered by a manufacturer who in each of the years, 1941, 1942 and 1943 had regularly serviced retail outlets out of finished stock owned and kept on hand by the manufacturer for that purpose.

(c) *Limitation on amount of hosiery to be sold at "branded" ceiling prices.*

(1) No manufacturer shall deliver "branded" nylon hosiery in any calendar quarter year at prices above those specified for unbranded hosiery in Appendix B to a greater percent of his total deliveries in dozens of pairs than his "branded percentage." A manufacturer's "total deliveries" for the purpose of this computation shall consist of only his deliveries of first quality finished full fashioned women's nylon hosiery (excluding irregulars, seconds, and thirds) and his deliveries of full-fashioned women's nylon hosiery in the greige of all grades. However, a manufacturer may add to the number of dozens of hosiery which he is permitted to deliver at "branded" ceilings in any calendar quarter year the number of dozens by which he has fallen short of delivering his "branded percentage" in any previous calendar quarter or quarters of the same calendar year.

For example: A manufacturer has a "branded percentage" of 80. In the first calendar quarter, his total deliveries of full-fashioned women's nylon hosiery (including only hosiery in the greige and first quality finished hosiery) is 50,000 dozen. With a "branded percentage" of 80, he would be permitted to deliver up to 40,000 at "branded" ceilings in this quarter. Actually, however, he delivers only 38,000 dozen (2,000 less than his limit). In the second quarter, this manufacturer arranges for delivery of 40,000 dozens (including only hosiery in the greige and first quality finished hosiery). Since his "branded percentage" is 80, he would normally be entitled to deliver 32,000 dozens at "branded" ceilings. However, he may add to this amount of "branded" hosiery the 2,000 dozens by which he has fallen short in the previous calendar quarter. (The previous quarter must have been in the same calendar year.) Accordingly, out of the 40,000 dozen which he delivers in this quarter year, he may deliver 34,000 dozens (32,000 plus 2,000) at "branded" ceilings.

(2) As a further limitation on the quantity of women's nylon hosiery which may be sold by a branded manufacturer at higher than unbranded prices, a manufacturer may not, after January 1, 1946, regardless of his branded percentage, sell at prices higher than manufacturer's unbranded prices, in any calendar half year more nylon hosiery than 50 percent of the total number of dozens of branded hosiery of all fibres that the manufacturer sold in the year 1941.

(3) A manufacturer's "branded percentage" is the percentage that his deliveries in 1941 of women's "branded"

full-length full-fashioned hosiery of all fibres bore to his total deliveries in 1941 of both women's first quality finished full-fashioned full-length hosiery of all fibres and of women's full-fashioned full-length hosiery of all fibres and grades in the greige. The ceiling price for all sales in excess of the "branded percentage" is the ceiling price for unbranded hosiery.

(4) On or before January 20, 1946, and on or before the 20th day of April, July, October and January thereafter, every manufacturer who has delivered women's "branded" nylon hosiery in the previous calendar quarter year shall file with the Consumer Goods Price Division, Office of Price Administration, Washington, D. C., a signed statement showing for the previous calendar quarter year each of the following:

(i) His total volume delivered (by dozens of pairs) of first quality finished full-fashioned women's nylon hosiery;

(ii) His total volume delivered (by dozens of pairs) of full-fashioned women's nylon hosiery in the greige of all grades; and

(iii) His total volume (by dozens of pairs) of full-fashioned women's nylon hosiery (broken down by the brands) delivered at ceiling prices above those specified for unbranded hosiery.

The report due on or before January 20, 1946 should cover only deliveries made after the effective date of this regulation.

(d) *Report which must be filed before selling "branded" nylon hosiery.* Before commencing to sell any nylon hosiery as branded hosiery a manufacturer must prepare and file with the Consumer Goods Price Division of the Office of Price Administration, Washington 25, D. C., a signed statement setting forth the information specified below in this paragraph. Manufacturers who have furnished this information accurately and in full, pursuant to the provisions of Second Revised Maximum Price Regulation 339, need not refile. The statement must show:

(1) The total number of dozens of pairs of women's full-fashioned full length hosiery in the greige of all fibres and grades and the total number of dozen pairs of women's first quality finished full-fashioned full length hosiery of all fibres which he delivered in the year 1941.

(2) The trade names and trademarks owned and used by him in each of the years 1941, 1942 and 1943 on women's first quality full-fashioned full length hosiery of all fibres which he delivered directly to retail establishments serviced out of his own finished stock kept on hand for that purpose.

(3) The number of dozens of pairs delivered in the manner described in subparagraph (2) of this paragraph must be separately stated for each brand and the total of all brands delivered in this way must be stated for each of the years 1941, 1942 and 1943.

(4) An exact statement showing dates and media of advertisements for each brand since January 1, 1941. Advertising directly to ultimate consumers (not to the trade) paid for in whole or in part by the manufacturer should be reported. Not more than ten advertisements per annum need be reported for any one brand.

(5) The amount of "branded percentage" as defined in paragraph (c) of this section.

Sec. 4. Maximum prices by special application.—(a) Nylon hosiery not specifically priced. Maximum prices for women's nylon hosiery not specifically priced in Appendix B can be established only by specific authorization from the Office of Price Administration, Washington 25, D. C. No person is permitted to deliver nylon hosiery for which a maximum price is not provided in Appendix B unless he receives such authorization. A seller who wants to secure a specific maximum price must file with the Consumer Goods Price Division of the Office of Price Administration, Washington 25, D. C., an application setting forth a description in detail of the nylon hosiery concerning which the application is made, together with a sample thereof. The seller must also submit a detailed breakdown of the current cost of the hosiery in accordance with applicant's accounting practice.

(b) *Hosiery specifically priced, but having additional features.* Where nylon hosiery is specifically priced in this regulation, but contains special features, a higher ceiling than that already stated may be authorized in certain exceptional cases. Higher ceilings for hosiery with special features will be established upon application where the special features are readily recognizable and where the Administrator is satisfied, from evidence submitted by the applicant that the special features will extend the useful life of the hosiery at least to the extent of the price increase. Consideration will not be given to pricing of special features the cost of which is less than 50¢ per dozen.

A seller who wants to secure such a higher-than-established ceiling for hosiery containing a special feature must file with Consumer Goods Price Division of the Office of Price Administration, Washington 25, D. C., an application setting forth a detailed description of the special feature concerning which the application is made including the utility value of the feature, and direct labor, indirect labor and royalty costs.

Sec. 5. Marking and other information.—(a) What marking must be made. The person who first sells hosiery in a finished state must mark it with a transfer, label, ticket or other device firmly affixed to at least one stocking of each pair of hosiery. No nylon hosiery in the finished state may be sold, offered for sale or delivered unless there is firmly affixed to the hosiery one of the marking devices described above in this section which contains the following information clearly and correctly stated.

(1) The words "O. P. A. Ceiling" or "O. P. A. Ceiling Price", accompanied by the maximum price at retail under this regulation; (if the hosiery is sold by a manufacturer to a person selling at wholesale ceiling prices or by a retailer who purchased the hosiery from a wholesaler permitted to sell at wholesale ceiling prices, the letter "W" must precede the maximum price. If the hosiery meets the definition of "branded" as stated in this regulation and is permitted

to be sold at branded ceiling prices, the letter "T" must precede the maximum price).

(2) The trade-mark, trade name, or the "manufacturer's registration number" of the person who first sells the hosiery in a finished state. Sellers who finish hosiery may secure these registration numbers by writing to the Consumer Goods Price Division, Office of Price Administration, Washington, D. C. Manufacturers who have secured "O. P. A. Numbers" pursuant to Second Revised Maximum Price Regulation 339 may use such numbers as "Manufacturers' Registration Numbers".

(3) The gauge or needle count of the hosiery.

(4) The word "out-size" on all out-size hosiery.

(5) The words "extra-long" on all hosiery 33½" long or longer.

(6) The word "irregulars" on all irregulars; the word "seconds" on all seconds; and the word "thirds" on all thirds. This marking of substandard hosiery must be placed on each stocking of the pair.

(7) The denier of the leg yarn.

(8) Fibre content in accordance with Trade Practice Rules of the Federal Trade Commission for the Hosiery Industry as promulgated May 15, 1941.

Information required by subparagraphs (1), (3) and (7) above must be marked on the welt within an outlined space or block having dimensions no less than ¾" x 1½" in the case of a transfer or no less than ¾" x ¾" in the case of a label or ticket. No other printing or lettering is permitted within the space or block except that the person who first sells the hosiery in a completely finished state may include his name, brand, or "manufacturer's registration number." Two examples are set forth below:

O. P. A. Ceiling T-\$1.40 45 Gauge—40 Denier
"Name" Brand

O. P. A. Ceiling W-\$1.20 340 Nds.—40 Denier
MFR. No. 999

Any of the other information required by this paragraph may be placed on the welt provided it does not confuse or obscure the information contained in the space or block or it may be placed upon the foot of the stocking.

(b) *Exceptions to marking provision*—(1) *Export sales*. These marking provisions do not apply to sales made to "exporters" as that term is defined in Second Revised Maximum Export Price Regulation. However, exporters must mark any hosiery which they sell in the domestic market or to a purchaser in any territory or possession of the United States or to a purchaser in the United States for shipment to any such territory or possession, in accordance with the marking provisions of this Regulation.

(2) *Sales prior to January 15, 1946, (temporary marking provision)*. The marking required by this section may, until January 15, 1946, be made by tag, insert or other device contained in, or

attached to the hosiery. If delivery is made to an ultimate consumer prior to January 15, 1946 in an envelope sealed by the manufacturer, the marking may be affixed to the outside of the envelope. In such case delivery must be made to the ultimate purchaser with the envelope unopened.

(3) *Sales-at-wholesale to "chain stores" and "mail order houses"*. Hosiery which is sold at wholesale to "chain stores" and "mail order houses" and which is correctly marked except that the price is the price fixed by column "g", Table 1, Appendix B, need not be re-marked by the seller-at-wholesale provided that the seller-at-wholesale includes on or annexes to the invoice for the delivery the following statement:

The hosiery in this shipment is not correctly marked. OPA MFR 602 requires you to re-mark it correctly before you sell it.

Please note that you must:
[Specify corrections which must be made.
Example: "Change 45gg ceiling price to \$1.20."]

(c) *Other information*.—(1) *For marking*. Any person making a sale other than a sale at retail shall furnish to his purchaser within five days after receipt of a written request, all information regarding the construction and quality of the nylon hosiery pertinent to the marking requirements of the purchaser.

(2) *Invoices*. Each person in connection with every sale (except a sale at retail) shall deliver an invoice or other similar document showing:

(i) The name and address of the seller and the purchaser;

(ii) The date of invoicing;

(iii) The number of dozens of hosiery delivered, broken down by construction, denier of leg yarn, gauge or needle count and the number of dozens in each gauge or needle count of firsts, irregulars, seconds and thirds;

(iv) The selling price per dozen for each of the kinds of hosiery specified in (iii) and the terms of sale;

(v) The seller's ceiling price per dozen for each of the kinds of hosiery specified in (iii) where the selling price is not the same as the ceiling price;

(vi) The seller's "qualified wholesaler's" registration number in the case of sales at wholesale made after December 31, 1945.

Every seller (including sellers at retail) shall retain for inspection by the Office of Price Administration a copy of each invoice given or received pursuant to this section. These records shall be retained for so long as the Emergency Price Control Act, as amended, remains in effect.

SEC. 6. *Explanation of terms*. (a) The "gauge" of full fashioned hosiery is the number of needles per 1½" of the needle bar on which the hosiery is knit, assuming the use of the full needle bar except for a tolerance of four needles.

(b) The "needle count" of circular knit hosiery is the total number of needles which operate to make the stocking on the knitting cylinder of the machine on which the hosiery is knit.

(c) "Full length hosiery" is hosiery designed to be worn with the welt above the knee.

SEC. 7. *Amendments*. Any person seeking an amendment which will have general applicability may file a petition for amendment in accordance with the provisions of Revised Procedural Regulation No. 1 issued by the Office of Price Administration.

SEC. 8. *When taxes may be added to ceiling prices*. If a statute or ordinance permits a tax to be separately stated, the seller is permitted to charge or collect, in addition to the price, a tax on the sale or delivery of the hosiery provided he states the tax separately. This applies, however, only to a tax on a particular sale or delivery such as a gross tax or compensating use tax. Taxes on prior sales or deliveries may not be added.

SEC. 9. *Relation to other maximum price regulations*. (a) *General Maximum Price Regulation*.

(1) *Applicability*. The General Maximum Price Regulation shall not apply and this regulation shall apply to sales, deliveries and offers to sell women's nylon hosiery. However, § 1499.14 of the General Maximum Price Regulation (Sales slips and receipts) is made a part of this regulation and each seller must comply with this provision.

(2) *Definitions incorporated by reference*. Unless the context otherwise requires, or unless otherwise specifically provided herein, the definitions set forth in § 1499.20 of the General Maximum Price Regulation shall apply to the terms used herein.

(b) *Second Revised Maximum Export Price Regulation*. This regulation shall not apply to nor supersede transactions regulated or governed by Second Revised Maximum Export Price Regulation.

(c) *Licensing Order No. 1*. The licensing provisions of Licensing Order No. 1, licensing all persons who make sales under price control shall apply to all sellers subject to this regulation. A seller's license may be suspended for violation of this regulation. A person whose license is suspended may not during the period of suspension make any sale for which his license has been suspended.

(d) *Maximum Price Regulation 95*. (Women's nylon hosiery) is superseded by this regulation.

SEC. 10. *Geographical applicability*. This regulation shall be applicable to the continental United States and to the District of Columbia, but not to the territories and possessions of the United States.

SEC. 11. *Prohibitions and enforcement*—(a) *Prohibitions*. On and after November 20, 1945, regardless of any contract or obligation, no person shall:

(1) Sell or deliver any nylon hosiery at a price higher than the maximum price permitted by this regulation; or

(2) Sell or deliver any nylon hosiery for which a maximum price is not provided in Appendix B unless he receives from the Office of Price Administration, Washington, D. C., a specific maximum price therefor, as provided in section 4; or

(3) Require a purchaser to buy or agree to buy any hosiery or other article, service, package, or wrapper in connec-

tion with a sale or delivery of nylon hosiery; or

(4) Buy or receive nylon hosiery in the course of trade or business at a price higher than the maximum price permitted by this regulation; or

(5) Offer, attempt, or agree to do any of the acts prohibited by this regulation; or

(6) Do any other act which directly or indirectly increases above the maximum price the consideration paid by the purchaser for nylon hosiery. Any practice which is a device to secure the effect of a higher-than-ceiling price is as much

a violation as an outright raising of the maximum price. This applies to but is not limited to the devices making use of commissions, services, cross sales, transportation arrangements, premiums, discounts, special privileges, tying-agreements, trade understandings and similar practices.

(b) *Enforcement.* Persons violating any provisions of this regulation are subject to criminal penalties, civil enforcement action, suits for treble damages and proceedings for suspension of licenses provided by the Emergency Price Control Act of 1942, as amended.

(b) *Table of defects (reference is to defect in either stocking).*

Column (1)	Column (2)	Column (3)

APPENDIX A—STANDARDS OF INSPECTION

Nylon hosiery must be classified and marked according to the standards of inspection set forth below:

(a) *Explanation of table of defects.* The following table illustrates how hosiery containing any of the defects listed should be classified. Hosiery containing any of the defects listed in columns (1), (2), or (3), or more serious defects cannot be considered first quality. If the defects are limited to those in column (1), the hosiery are irregular. If the defects are limited to those in columns (1) and (2), the hosiery are seconds. If the hosiery contain any of the defects in column (3) or more serious defects, and are still merchantable as stockings, they are thirds.

Notes to Tables

1 How to use tables. "Chain stores" and "mail order houses" will find the maximum prices at which they may sell nylon hosiery in column (e) above. Other retailers who buy unbranded hosiery direct from manufacturers will find the maximum prices at which they may sell nylon hosiery in column (f) and they will find in column (g) the maximum prices at which they may sell branded hosiery purchased from a manufacturer or hosiery branded or unbranded which they bought from a "qualified wholesaler" in a sale at wholesale. Hosiery sold "house to house" may be sold at the prices shown in column (g). Only first quality hosiery may be sold at branded ceiling prices.

Drop shipments under sales at wholesale are sales which qualify as sales at wholesale and in addition involve delivery to the retailer either from a place of business other than that of the seller-at-wholesale, or shipment by such seller to the retailer in substantially the same shipping case, shipping container, or outer covering in which the seller received the hosiery.

Manufacturers who are not retailers have but two possible types of sales. When they sell "branded hosiery" (as that term is defined in section 3 of the regulation) they will find their ceilings in column (c). Their unbranded hosiery ceilings are found in column (b). Hosiery classed as irregulars, seconds or thirds may not be sold at "branded" ceilings. Manufacturers should likewise note that no hosiery which they sell to wholesale establishments may be sold at prices higher than those shown in column (b). Manufacturers who are also retailers will find an explanation of their retail prices in section 2 (c).

Description of constructions referred to in Table 1.

(a) Extra length stockings are those with a minimum length of 33½" finished.

(b) Lace and mesh stockings are those with a distinctive lace or mesh pattern throughout the leg portion, knit with full lace or modified lace tackle on a full-fashioned knitting machine. No lace or mesh premium may be applied to gauges higher than 51 if such premium results in a price greater than the corresponding lace or mesh price for 51 gauge.

(c) Outsize hosiery, 14", and 14½" outsize hosiery is hosiery which (i) is knit on 14" and 14½" needle bar using the full needle bar (with tolerance of 4 needles);

(ii) is knit with no fashionings or narrowings in the flare;

(iii) is boarded on outsize forms in accordance with accepted trade practice. 15" and 16" outsize hosiery is hosiery which is knit on a full 15" or 16" needle bar (with a tolerance of 4 needles) and is boarded on outsize forms in accordance with accepted trade practice. No outsize premium may be applied to gauges higher than 45 if such premium results in a price greater than the corresponding price of 45 gauge.

(d) Non-run stockings are those which are knit throughout the leg portion by one of the generally accepted methods of knitting non-run fabric. No non-run premium may be applied to gauges higher than 45 if such premium results in a price greater than the corresponding non-run price for 45 gauge.

(e) All-nylon. If hosiery is made entirely of continuous filament nylon thread, or if the entire stocking is made with continuous filament nylon thread and any part of the foot is reinforced with another fibre the hosiery is considered all-nylon. In the case of outsize hosiery, if the stocking is made with a cotton welt and is otherwise all-nylon except for foot reinforcement it is considered all-nylon.

(f) Nylon leg. If the leg is knitted entirely of continuous filament nylon thread, but some other portion of the stocking is made of another fibre (except for foot reinforcement described in (c) and cotton welt in outsize hosiery) the stocking is considered "nylon leg."

(g) Jacquard stockings are those made with a distinctive ornamental pattern or design on a full-fashioned knitting machine using a full Jacquard premium tackle. No Jacquard premium may be applied to gauges finer than 51 if such premium results in a price greater than the corresponding price for 51 gauge Jacquard stocking.

PART 1351—FOOD AND FOOD PRODUCTS [MPR 262,¹ Amdt. 29]

SEASONAL AND MISCELLANEOUS FOOD COMMODITIES

A statement of the considerations involved in the issuance of this amendment has been issued and filed with the Division of the Federal Register.

§ 1351.955e *Maximum prices for producers of mince meat, adjusted for 1945 apple costs.* (a) Any producer who figured his maximum price for an item of mince meat under this regulation before November 15, 1945, shall refigure that price according to this paragraph; and any producer who figures his maximum price for the first time on or after that date shall figure it according to this paragraph. He shall:

(1) *Start with the 1943 maximum price.* The producer shall use as his starting point his maximum price as figured under § 1351.955c.

(2) *Subtract 1943 cost of fresh apples.* Next, the producer shall subtract his 1943 weighted average cost delivered to his customary receiving point of the fresh apples actually used in the item, as figured under and subject to the limitations of § 1351.955c.

(3) *Add 1945 cost of fresh apples.* Finally, the processor shall add to the resulting figure his 1945 weighted average cost delivered to his customary receiving point of the fresh apples actually used by him in the item, after conversion to cents per unit of the finished product by applying the simple average of his 1941 and 1943 case (unit) yields and by adjusting for grade according to his customary practice. "Weighted average cost delivered to his customary receiving point" means the total amount

paid or contracted to be paid, including all charges for delivery to the producer's customary receiving point, divided by the total number of pounds purchased or contracted for between July 1, 1945 and the date of calculation under this section. In no event, however, shall this weighted average cost delivered to his customary receiving point exceed \$4.10 per one hundred pounds raw weight, in the case of a producer whose customary receiving point is located in Washington, Oregon, California, Idaho or Montana, or \$5.60 per one hundred pounds raw weight, in the case of a producer whose customary receiving point is located in any other state.

(b) A producer with one or more customary receiving points in each area shall figure separately his maximum prices for mincemeat that he produces from apples received in Washington, Oregon, California, Idaho or Montana and for mincemeat that he produces from apples received in other states. Such a producer may, if he wishes, establish a uniform maximum price for any item by figuring a weighted average of his two maximum prices for that item as follows: He shall (a) determine the total estimated receipts that would have been obtained if his production of the item during the one-year period immediately preceding the date of the calculation had been sold at the separate maximum prices in effect on the date of calculation and (b) divide that figure by the total number of units of the item included in that production. A producer who establishes a uniform maximum price in that way shall refigure his weighted average maximum price at the end of each subsequent one-year period on the basis of sales during the one-year period immediately preceding the date of recalculation.

(c) Each producer shall report his maximum prices he figures under this section as though mincemeat were being included in this regulation for the first time on November 15, 1945. Until he reports those maximum prices pursuant to § 1351.959a, he may not sell above his former maximum prices.

(d) With the first delivery of an item after a producer has reported his maximum price and thereafter with the first delivery of an item after the effective date of any provision changing his maximum price, he shall supply each wholesaler and retailer who purchases from him with written notice reading as follows:

(Insert date)

NOTICE TO WHOLESALERS AND RETAILERS

Our OPA ceiling price for (describe item by kind, grade, brand, container type and size) has been changed by the Office of Price Administration. We are authorized to inform you that, if you are a wholesaler or retailer pricing this item under Maximum Price Regulation No. 421, 422 or 423, you must refigure your ceiling price for the item on the first delivery of it to you from your customary type of supplier with this notification on or after (insert the date on which the producer reported his price or, where applicable, effective date of amendment). You must refigure your ceiling price following the rules in section 6 of Maximum Price Regulation No. 421, 422 or 423, whichever is applicable to you.

For a period of 60 days after reporting the new maximum price for the item, and with the first shipment after the 60-day period to each wholesaler or retailer who has not made a purchase within that time, each producer shall include in each case, carton, or other receptacle containing the item, the written notice set forth above, or securely attach it to the outside. However, for sales direct to any retailer, the producer may supply the notice by attaching it to, or stating it on, the invoice covering the shipment instead of providing it with the goods.

The terms "wholesaler" and "retailer" mean the persons respectively referred to as "wholesalers" and "retailers" in Maximum Price Regulation Nos. 421,³ 422,³ and 423.⁴

This amendment shall become effective November 15, 1945.

NOTE: All record-keeping and reporting requirements of this amendment have been approved by the Bureau of the Budget, in accordance with the Federal Reports Act of 1942.

Issued this 15th day of November 1945.

Administrator.

PART 1351—FOOD AND FOOD PRODUCTS [MPR 280, Amdt. 56]

MAXIMUM PRICES FOR SPECIFIC FOOD PRODUCTS

A statement of the considerations involved in the issuance of this Amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.

Maximum Price Regulation 280 is amended in the following respect:

Section 1351.806a is added to read as follows:

§ 1351.806a. *Individual adjustment of maximum prices for cottage cheese—(a) When adjustments may be made.* Either upon application in accordance with Revised Procedural Regulation No. 1, or on his own motion, the Price Administrator may adjust a processor's maximum price for cottage cheese established under this regulation, when it appears that:

(1) The maximum price is below the median price at which sales of cottage cheese are made by processors located in the general processing area;

(2) The processor would be entitled to a price increase under the standards set forth in paragraph (b) below, and

(3) In the judgment of the Price Administrator, an increase in the processor's maximum price would be in furtherance of the purposes of the Emer-

gency Price Control Act of 1942, as amended, the Stabilization Act of 1942, as amended, and Executive Orders Nos. 9250 and 9328.

(b) *Amount of adjustment.* The maximum price, as adjusted under this section, shall in no event be higher than the median price at which sales of cottage cheese are made by processors located in the general processing area. Subject to this limitation and the limitation of paragraph (a) (3), the adjusted maximum price shall not exceed the following amount:

(1) Processing costs and direct delivery costs for cottage cheese, if the processor's percentage of net operating profits (before income and excess profits taxes) to net sales, during the most recent fiscal year, was 3 percent or higher; or

(2) Total costs for cottage cheese, if the processor's percentage of net operating profits (before income and excess profits taxes) to net sales, during the most recent fiscal year, was less than 3 percent but no lower than 1½ percent; or

(3) Total costs for cottage cheese plus a profit equal to 1½ percent of the adjusted maximum price, if the processor's percentage of net operating profits (before income and excess profits taxes) to net sales during the most recent fiscal year, was lower than 1½ percent.

In determining adjustments under this section changes in prices resulting from the granting of adjustments under this section shall, so far as practicable, be disregarded.

(c) *Adjustment for distributors.* Any distributor, other than a retailer whose sales are governed by Maximum Price Regulations 422 and 423, purchasing cottage cheese from a processor whose maximum price has been increased under the provisions of this section may add to his maximum price for cottage cheese purchased from such processor the same amount of the increase granted the processor.

(d) *Definitions.* When used in this section the term:

(1) "Cottage cheese" means cottage cheese and creamed cottage cheese as defined in "cream cheese, neufchatel cheese, cottage cheese, and creamed cottage cheese; Definitions and Standards of Identity" promulgated by the Food and Drug Administration and published in the Federal Register of December 23, 1942. It contains not more than 80 percent moisture, as determined by the method prescribed under "Moisture—Official" on page 301 of "Official and Tentative Methods on Analysis of Association of Official Agricultural Chemists," Fifth Edition, 1940. If any State regulation prescribes processing methods and requirements for cottage cheese, the product covered by this regulation shall be deemed to include such cottage cheese and creamed cottage cheese made in conformity with State laws. Plain "cottage cheese" contains less than 4 percent butterfat; "creamed cottage cheese" contains at least 4 percent, but not more than 5 percent, of butterfat.

(2) "Net sales" means total sales less return sales of finished product.

(3) "Processing costs" means:

(i) Actual cost per unit, delivered to the plant, of all ingredients and packag-

ing materials for which maximum prices have been established, figured at no more than the current maximum prices applying to the class of purchasers to which the processor belongs, or, if no maximum prices have been established, figured at no more than their current market prices;

(ii) Direct labor cost per unit figured at no more than lawful current rates;

(iii) Other costs of processing per unit, such as indirect labor (figured at no more than lawful current rates), depreciation, factory rental, insurance, machinery repairs, and other cost factors generally pertaining to processing operations, but not including general administrative and selling expenses.

(4) "Direct delivery costs" means actual cost of delivering the product, where such cost is borne by the processor, including commissions paid to route drivers as a part of their wages, but not including other selling expense or commissions paid to sales people who do not make deliveries.

(5) "Total costs" means processing costs, direct delivery expenses and general administrative and selling expenses per unit.

(6) "Median price" means the middle price of a series of prices arranged in order of size or, if the series consists of an even number of prices, the simple arithmetic average of the two middle prices.

(e) *Form and place of filing application.* Applications for adjustment under this section shall be filed with the Office of Price Administration, Washington, D. C., in duplicate, on Office of Price Administration Form No. 6031-2555, and shall contain the information specified in the form with the following qualifications: In Part II under Item E include only actual cost of delivery, including gasoline, oil, repairs and depreciation of trucks, wages or route drivers, and commissions paid to drivers where such payment represents a portion of the drivers' wages; do not include supervisory salaries or wages.

Copies of Form 6031-2555 may be obtained from any field office of the Office of Price Administration or from the Poultry, Eggs and Dairy Products Branch, Food Price Division, Office of Price Administration, Washington, D. C.

This amendment shall become effective November 24, 1945.

FEDERAL COMMUNICATIONS COMMISSION.

RAILROAD RADIO SERVICE

ORDER INVITING ORAL ARGUMENT IN THE MATTER OF PROMULGATION OF RULES AND REGULATIONS

Whereas, in the light of the evidence presented "In the Matter of the Investigation of the Establishment and Use of Radiocommunications Systems in Railroad Operations" (Docket No. 6593), it is desirable that rules and regulations governing the operation of radio stations in connection with railroad operations should be promulgated as soon as possible; and

Whereas, the Commission on May 25, 1945, issued its final Report of Allocations from 25,000 kilocycles to 30,000,000 kilocycles (Docket 6651), allocating frequencies for a new railroad radio service; and

Whereas, a considerable amount of experimentation has now been completed on the part of various railroads pursuant to experimental authorizations issued by the Commission for the purpose of obtaining, among other things, the necessary information for the establishment of the railroad radio service on a regular basis; and

Whereas, the rules now proposed to be adopted for governing the new railroad radio service have previously been discussed with representatives of the Association of American Railroads and other interested railroad representatives;

Now, therefore, it is hereby ordered, This 14th day of November 1945, that, unless otherwise ordered by the Commission upon the consideration of objections filed as hereinafter provided, a new Part 16, Rules and Regulations Governing Railroad Radio Service, be, and it is hereby, adopted, effective December 31, 1945 in the form shown on the attachment hereto.

It is further ordered, That any interested party may within 20 days from the date hereof, file a statement in writing setting forth reasons why Part 16 of the Commission's rules and regulations should not become effective in the form shown in the attachment hereto and request oral argument thereon; and, if such reasons are substantial, oral argument will be granted.

§ 16.141 *Station identification.* Each station in the railroad radio service shall be identified during each communication or exchange of a series of communications. During an exchange of communications exceeding fifteen minutes in length, each station shall be identified at the end of each fifteen minute period. In lieu of assigned call letters, identification may be made by the name of the railroad and the train number, caboose number, engine number or name of fixed wayside station; or, if that is not practicable, by such other number or name as may be specified by the railroad con-

cerned for the use of employees of the railroad to identify the fixed point or mobile unit where the radio station is located. Where identification is made other than by train number, caboose number or engine number, a list of such identifications shall be maintained by the railroad. An abbreviated name or initial letters of the railroad may be used where such name or initial letters are in general usage. In those cases where it is shown that no difficulty would be encountered in identifying the transmissions of a particular station, as for example where stations of one licensee are located in a yard isolated from other radio installations, approval may be given to a request of the licensee for permission to omit station identification.

§ 16.142 *Who may operate stations.* Stations in the railroad radio service may be operated only by persons holding commercial radio operators licenses issued by the Commission and in accordance with the rules governing commercial radio operators or by employees of the station licensee meeting the qualifications prescribed by the Commission and in accordance with the limitations prescribed by the Commission in its Order No. 126 for operation by such employees.

§ 16.143 *Inspection of stations.* All classes of stations in the railroad radio service shall be made available for inspection upon request of a representative of the Commission except where serious interference with a railroad operation in progress or immediately impending would result, in which event the station shall be made available immediately upon termination of the operation or at such other time as may be satisfactory to the Commission's representative.

[File No. 70-1153]

AMERICAN POWER & LIGHT CO. AND NEW MEXICO ELECTRIC SERVICE CO.

NOTICE OF FILING AND ORDER FOR HEARING

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pennsylvania, on the 14th day of November, A.D. 1945.

Notice is hereby given that an application or declaration and amendment thereto has been filed with this Commission pursuant to the Public Utility Holding Company Act of 1935 by American Power & Light Company ("American"), a subsidiary of Electric Bond and Share Company, both registered holding companies. Applicant designates sections 12 (d) and 12 (f) of the act and Rule U-44 thereunder as applicable to the proposed transactions.

All interested persons are referred to the application or declaration, which is on file in the office of this Commission, for a statement of the transaction therein proposed which may be summarized as follows:

New Mexico Electric Service Company ("New Mexico"), is a public utility company operating within the State of New Mexico. American owns all of the outstanding securities of New Mexico consisting of 37,497 shares and Options to purchase 3 shares of the common stock, a 6% overdue promissory note in the principal amount of \$517,662 upon which there is presently owing \$497,000, and a

6% open account indebtedness in the amount of \$70,000. American proposes to sell said securities and said open account indebtedness, at private sale, to M. J. Murray, Jr. of Hobbs, New Mexico for a cash purchase price of \$1,206,000 plus \$150 per day from September 30, 1945 to the closing date of the proposed sale.

American proposes to use the proceeds of such sale as part of the cash required for the retirement of American's Gold Debenture Bonds, 6% Series due 2016, and Southwestern Power & Light Company 6% Gold Debenture Bonds, Series A, due 2022, assumed by American.

Prior to the consummation of the proposed sale New Mexico will assign to American all claims which it may have against Electric Bond and Share Company and the latter's present or former subsidiary companies. New Mexico and American have also agreed that American shall receive the benefit of any gain or suffer any loss occasioned by New Mexico's over-accrual or under-accrual, respectively, for Federal income and excess profits taxes between January 1, 1942 and the last day of the month preceding consummation of the proposed transactions.

American requests that the Commission issue an order exempting the proposed sale of said securities from the competitive requirements of Rule U-50.

American also requests that the Commission recite in its order that said sale and transfer and the payments, if any, pertaining to adjustments on account of provisions for Federal income and excess profits taxes of New Mexico are necessary or appropriate to the integration or simplification of the holding company system

of which American is a member and are necessary or appropriate to effectuate the provisions of section 11 (b) of the act, all in accordance with the meaning and requirements of the Internal Revenue Code as amended including section 1808 (f) and Supplement R thereof.

It appearing to the Commission that it is appropriate in the public interest and in the interest of investors and consumers that a hearing be held with respect to said application or declaration and that said application shall not be granted or said declaration be permitted to become effective except pursuant to further order of the Commission;

It is ordered, That a hearing on said matters under the applicable provisions of the act and the rules of the Commission thereunder be held on December 3, 1945 at 10:00 a. m., e. s. t., in the offices of the Securities and Exchange Commission, 18th and Locust Streets, Philadelphia 3, Pennsylvania. On such date the hearing room clerk in Room 318 will advise as to the room in which such hearing will be held. All persons desiring to be heard or otherwise wishing to participate in the proceedings shall notify the Commission in the manner provided by its rules of practice, Rule XVII, on or before December 1, 1945.

It is further ordered, That Willis E. Monty or any other officer or officers of the Commission designated by it for that purpose, shall preside at said hearing. The officer so designated to preside at such hearing is hereby authorized to exercise all powers granted to the Commission under section 18 (c) of the act and to a trial examiner under the Commission's rules of practice.

It is further ordered, That, without limiting the scope of the issues presented by such application, particular attention will be directed at such hearing to the following questions:

(1) Whether the proposed sale of the securities of New Mexico by American shall be exempted from the competitive bidding requirements of Rule U-50.

(2) Whether the proposed sale of said securities and open account indebtedness meets the requirements of the applicable provisions of the act, particularly section 12 (d) thereof.

(3) What terms and conditions, if any, with respect to the proposed transaction should be prescribed in the public interest or for the protection of investors and consumers.

(4) Generally, whether the proposed transaction complies in all respects with the applicable provisions of the act and the rules thereunder.

(5) Whether the proposed transactions are necessary or appropriate to effectuate the provisions of section 11 (b) of the act and whether the proposed transactions constitute steps in compliance with the order of the Commission dated August 22, 1942 requiring the dissolution of American.

[SO 119, Order 15]

NATIONAL METAL ART MANUFACTURING CO.

ADJUSTMENT OF CEILING PRICES

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register, and pursuant to sections 13 and 14 of Supplementary Order No. 119, it is ordered:

(a) *Manufacturer's ceiling prices.* National Metal Art Manufacturing Company, Brooklyn, New York, may increase by no more than 17.3 per cent, its ceiling prices to each class of purchaser for sheetmetal bathroom and kitchen cabinets and accessories of its manufacture.

(b) *Ceiling prices of purchasers for resale.* Purchasers for resale of such articles which the manufacturer has sold at adjusted maximum prices permitted by paragraph (a) above, shall determine their maximum prices as follows:

(1) A purchaser for resale who delivered or offered for delivery during March 1942 an article contained in § 1499.3 (a) of the General Maximum Price Regulation, except that it need not be currently offered for sale, shall calculate his ceiling price by adding to his invoice cost the same markup which he had on that comparable article, according to the method and procedure set forth in that section.

The determination of a ceiling price in this way need not be reported to the Office of Price Administration; however, each seller must keep complete records showing all the information called for by O. P. A. Form 620-759 with regard to how he determined his ceiling price, for so long as the Emergency Price Control Act of 1942, as amended, remains in effect.

(2) If a purchaser for resale cannot determine his ceiling price under the above method, he shall apply to the Office of Price Administration for the establishment of his ceiling price under § 1499.3 (c) of the General Maximum Price Regulation. Ceiling prices estab-

lished under that section will reflect the supplier's prices adjusted in accordance with this order.

(c) *Terms of sale.* Ceiling prices adjusted by this order are subject to each seller's customary terms, discounts, allowances and other price differentials on sales to each class of purchaser.

(d) *Notification.* At the time of, or prior to, the first invoice to a purchaser for resale showing a ceiling price adjusted in accordance with the terms of this order, the seller shall notify such purchaser in writing of the methods established in paragraph (b) for determining adjusted ceiling prices for resales of the articles covered by this order. This notice may be given in any convenient form.

(e) This order may be revoked or amended by the Price Administrator at any time.

(f) *Effective date.* This order shall become effective on November 17, 1945.

1. For mills located in and immediately around Savannah, Georgia, and Jacksonville, Florida—\$13.40 per ton, in 100# paper bags.

2. For mills located in the States of New Hampshire, Massachusetts, Connecticut, New York, New Jersey, Pennsylvania and Maryland—\$11.40 per ton, in 100# paper bags.

3. For all other mills located in the United States excluding those located in the States of California and Nevada, and excluding those covered in (1) and (2) above—\$11.00 per ton, in 100# paper bags.

(b) If the manufacturer had an established differential in price during the month of March 1942 between sales to dealers and sales to other classes of purchasers or between calcined gypsum neet plaster and other gypsum "bag goods," (but not including small package goods such as patching or painter's plaster or combinations thereof), commonly sold in 80# and 100# sizes, including the several sizes of barrels containing 150# or more per barrel, he may adjust his maximum prices for these other types of sales and other gypsum "bag goods" to maintain the same March 1942 dollars-and-cents price differentials between the price established for gypsum neet plaster pursuant to paragraph (a) above and such other types of sales and other gypsum "bag goods."

(c) If the manufacturer produces white plaster "bag goods" commonly sold in 80# and 100# sizes, including the several sizes of barrels containing 150# or more per barrel, and does not manufacture calcined gypsum neet plaster, he may adjust his maximum prices for white plaster "bag goods" to reflect the increases granted in (a) above, on the basis of what his increase would have been had he produced and sold neet plaster at the general level of prices in the area in which the particular plant is located.

(d) The manufacturers' maximum delivered prices established pursuant to Maximum Price Regulation No. 592 for the products covered by this section, for shipment into a flat delivered price zone, may be increased by the actual dollars-and-cents increase in the f. o. b. mill price resulting from the price established by this section, for the producing mill nearest the flat delivered price zone.

(e) The maximum prices established herein shall be subject to quantity, cash, and other discounts, transportation allowances, freight equalizations, services, and other terms and conditions of sale at least as favorable as the seller extended or rendered on comparable sales to purchasers of the same class during March 1942.

(f) Any reseller purchasing calcined gypsum plaster for resale in the same form from any manufacturer who has adjusted his maximum prices in accordance with (a), (b), (c) or (d) above, may increase his maximum prices established under the General Maximum Price

Regulation, by a dollars-and-cents amount not exceeding his actual dollars-and-cents increase in cost resulting from the increase permitted in (a), (b), (c) and (d) above.

(g) Any manufacturer who adjusts his maximum prices for sales of calcined gypsum plaster "bag goods" in accordance with the provisions of this section, shall furnish to each buyer purchasing these products for resale in the same form, on or before the date he makes the first delivery at the adjusted prices, a written statement as follows:

Effective November 16, 1945 the Office of Price Administration has permitted us an increase of \$ per ton over our March 1942 prices for calcined gypsum plaster "bag goods" commonly sold in 80# and 100# sizes, including the several sizes of barrels containing 150# or more per barrel.

This amendment shall become effective November 16, 1945.
